

Get your business connected to one of the leading Internet service providers with BitCo Fibre. With Internet speeds of up to 1Gbps, you are guaranteed to get the throughput you need for your business to stay productive.

Connect With Us

We are a National Telecommunications Provider that has been revolutionising business connectivity for over a decade. We build, maintain and manage our private Fibre Optic and Wireless Last Mile Network which spans across South Africa. Complete control combined with Quality of Service (QoS) guarantees operational uptime and a Network to optimally service the broad Business Market.

Inspire Your Business With BitCo Corporate Fibre

Take your business to the next level of connectivity and get fast, uncapped, uncontended and synchronous Internet. Our Fibre is reliable, scalable and cost effective.

Streaming

Fast, uncapped and synchronous business Fibre is perfect for video conferencing and general streaming.

Communication

Ideal for everyday e-mail, communications and connectivity to multiple devices.

Security

Increased security and ability to provide reliable connectivity when a Firewall is active.

Voice Solutions

Run Voice over IP (VoIP) and a Virtual PBX solution.

Reliability

Improve efficiency and provide reliable connectivity with guaranteed 99% operational uptime.

Features and Benefits

A secure and robust network provides for reliable connectivity with a 99% operational uptime guarantee. Fibre services are fully customisable and can be tailored to suit your needs.

- Easily upgradeable
- Higher bandwidth capabilities
- Guaranteed 99% uptime, highly reliable
- Faster - up to 1,000 Mbps (Gigabit) per second
- Immune to interference
- Less vulnerable to theft and corrosion
- Future proof and versatile
- Fail-over option for increased redundancy
- Run multiple applications such as voice and data over a single connection, hassle-free
- Fully uncapped and synchronous Internet
- Uncontended bandwidth
- 1 public IP included
- Up to 13 public IP's available on request (Charges may apply, motivation required)
- Temporary licensed frequency microwave technology link available as an interim solution while Fibre is being deployed (Line of sight dependent)

Think Fast. Think Fibre.

With speeds of up to 1Gbps, you are guaranteed to get the throughput you need for your business to stay productive.
