

Our reputation for premium last mile connectivity began with our Metro Ethernet Wireless Network. We were one of the first market entrants to own an independent network, allowing us to be in full control of uptime and quality of service.

Connect With Us

We are a National Telecommunications Provider that has been revolutionising business connectivity for over a decade. We build, maintain and manage our private Fibre Optic and Wireless Last Mile Network which spans across South Africa. Complete control combined with Quality of Service (QoS) guarantees operational uptime and a Network to optimally service the broad Business Market.

Revolutionise Your Business With Wireless Connectivity

Our Wireless offering is still a favourite for businesses located in areas without Fibre or where rapid connectivity is required. We proudly hold three licences to operate our wireless network, one of which grants us permission to use a highly sought after, lower frequency band.

Streaming

Fast and uncapped business Wireless is perfect for video conferencing and general streaming.

Communication

Ideal for everyday e-mail, communications and connectivity to multiple devices.

Security

Increased security and ability to provide reliable connectivity.

Voice Solutions

Run Voice over IP (VoIP) and a Virtual PBX solution.

Reliability

Improved efficiency and reliable connectivity with guaranteed 99% operational uptime.

Features and Benefits

- Rapid Connectivity. Product can be installed in as little as 3 - 5 weeks
- Accessible - Wireless is typically available, or can be installed, in areas without DSL or Fibre
- Convenient fail-over - Wireless connectivity is a popular choice as a back-up link for increased redundancy
- Fully uncapped
- Guaranteed 99% uptime
- 12, 24 and 36 month contract options
- Speeds of up to 100Mbps available
- 1 public IP included. Up to 13 public IP's available on request (charges may apply, motivation required)

We've grouped our various Carrier-Class Wireless Metro Ethernet options into three convenient categories to help you choose the best fit for you.

Wireless DSL (WDSL)

Speed	24 Months
5Mbps	R 999.00
10Mbps	R 1 299.00
Setup	R 1 499.00

An entry level, cost effective solution to access the web for basic day-to-day business transactions.

- 1 Public IP
- Uncapped
- Contention (1 : 5)
- Open Spectrum Microwave

Compact Wireless

Speed	12 Months	24 Months	36 Months
5Mbps	R 1 895.00	R 1 495.00	R 995.00
10Mbps	R 2 495.00	R 2 095.00	R 1 595.00
Setup	R 1 499.00	R 1 499.00	R 1 295.00

This is a basic Wireless Internet offering. Recommended for start-up, small or medium businesses.

- 1 Public IP
- Uncapped
- Contention (1 : 5)
- Open Spectrum Microwave
